Dear Matt,

I wanted to thank you for NexGen's help in customizing the Wealth Management template running on Enterprise Edition. When we hired NexGen, we were an existing user of the template but needed help with some of the following:

- Finalizing the Design of our Application
- Migration of our data into both business and person accounts
- Outlook Integration
- Development of Workflow rules to automate our business processes
- Training

Your organization has a very good understanding of both Salesforce.com functionality as well as the Wealth Management template. Any other Wealth Management firms looking to deploy Salesforce.com would be wise to utilize your services.

Thanks,

Andy Hartlieb  
President
