To Whom It May Concern:

It is my pleasure to recommend the services of NexGen Consultants. We recently contracted with NexGen to implement and configure Salesforce at our company. We are a global organization that provides Institutional investment management for our clients. With the help of NexGen, and specifically Justin Davis, we created a configuration that is unique to our business model. Our project consisted of the following:

- Migrating Data from Satuit to Salesforce
- Implementing a Salesforce Hedge Fund Template
- Using the following: Businesses (Accounts), Contacts, Flows (Opportunities), Funds, Capital Accounts
- Creating Reports and Dashboards
- Synchronizing with Outlook
- Creating Mobile Access

In addition, Justin spent time training our users on the new environment. NexGen took the time and had the flexibility to make this project a success. The team listened to our needs and translated them into a configuration that is unique to our business model. We are impressed with the level of commitment and confidently recommend NexGen as a Salesforce Implementation Partner.

Sincerely,

Don McKinnon
