Dear Matt,

It's with well-earned respect that I confidently recommend NexGen Consultants for any Salesforce.com development or implementation. The success of any project depends on the ability of the team assembled, and the technical expertise, creativity, and problem-solving skills of the NexGen team are commendable.

In our Salesforce.com environment, NexGen has helped to create an efficient workflow for our business processes with customized fields, record types, validation rules, views, reports etc... In addition, they provided customized training materials that made our transition to Salesforce personal and comprehensive. I was particularly impressed with NexGen's commitment to work through any difficulties that came up in regard to Salesforce limitations compared to our desired "ask", and get to a solution that still met our purpose.

Blue Sea Capital has found a true consulting partner in NexGen and we look forward to their continued support.

Sincerely,

Matt Turk
