Mr. Matt Mountain  
NexGen Consultants  
665 Balbriggan Court  
Cincinnati, OH 45255

NexGen:

Thank you for the expertise you provided to Corbus. Your consultants were extremely helpful in getting our team up and running with the system. To say NexGen has exceptional customer service would be an understatement. We introduced many specific requirements that proved not to be a challenge to the consultants. We always received quick responses to any of our questions, whether they required simple direction or plenty of research. Our administrator, one who had never worked with the system before, has evolved into a knowledgeable base for our users with the skills to propel Corbus forward from working directly with your company. Some features we implemented on our Enterprise Edition included:

- Implementing Products and Pricebooks
- Salesforce for Outlook Integration
- Custom Record Types and Sales Process
- Migration of ACT! Data
- Resolving Data Quality Issues
- Workflow Rule Configuration
- Reports/Dashboard Configuration

Your team delivered everything that was asked of them; I would recommend them to any organization looking to implement Salesforce.com.

Sincerely,

A handwritten signature in blue ink, consisting of several loops and a long horizontal stroke extending to the right.

Jason Evans  
Senior Vice President  
Corbus, LLC
