Mr. Donald Hampton  
NexGen Consultants  
665 Balbriggan Court  
Cincinnati, OH 45255

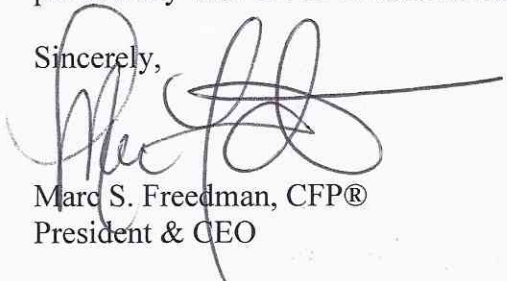

Dear Donald,

I would like to compliment the NexGen team for the work they did for us with our Salesforce environment.

As you know, we had already been using Salesforce when our project with NexGen began. We had a fairly intricate configuration that was no longer meeting our needs. NexGen was able to come in and help us remove the package that we bought, and then reconstruct a mapping system to insure that our data was restored and not duplicated. NexGen worked hand-in-hand with the new LPL Package as well as other resource vendors to streamline my environment. We are now positioned to begin taking advantage of the service packs, client segmentation and recurring business features. Josh Geiger worked hard to gain a full understanding of our issues and systematically changed our configuration to meet our needs. His work was excellent and he should be commended.

We are happy to recommend NexGen Consultants as a Salesforce.com implementation partner, particularly with the LPL customization managed package.

Sincerely,

Marc S. Freedman, CFP®  
President & CEO
