February 12, 2013

Dear Matt,

I would like to compliment the work that NexGen did with our recent Salesforce.com project. Maureen Eckert worked closely with our team to migrate data from our previous environment to the current environment. We had a very short timetable and Maureen was able to accomplish all that we asked within the timeframe necessary. We are a manufacturer of machine tools and we needed the project to be done quickly.

Please feel free to forward my letter to other potential clients, especially manufacturing firms that are looking for a Salesforce.com partner. Thank you for all of your help.

Sincerely,

*Tasha Riddell
