Randy,

I would like to thank you for all of your help getting Falcon Affiliates up and running on Salesforce.com.

Falcon engaged NexGen Consultants on a fixed fee project. We found NexGen to be patient and constructive, taking the time to thoroughly understand our needs as a private-equity-focused investment firm and explain how we could most fully benefit from Salesforce.com. The end result is an application that improves our productivity and efficiency, and we are very happy with it.

You have been great to work with and I would recommend you to other Financial Services and Investment Management firms looking to deploy Salesforce.com. Thanks again!

Will Krusen
