Dear Matt,

It is my pleasure to recommend NexGen Consultants as an implementation partner. The entire process from start to finish was handled in an extremely intelligent and professional manner. NexGen made the entire process very easy for us to follow and keep on track. I give them 5 out of 5 stars.

We worked with Josh Geiger and Kristen Crane for our transition from the LPL template to a customized version of salesforce. They both demonstrated their commitment to providing a quality product, paying attention to detail while coordinating all aspects of the work.

We had a very complex data migration coming from a highly customized LPL version of Salesforce. They took the time to really understand the data from this previous system. It was a time consuming and difficult task and it was done very well. We migrated about 20 custom objects and extensive configuration on standard objects. Finally, as part of this move to a new version of salesforce we migrated millions of records into standard and custom objects.

The entire team was very responsive and attentive, helping us to understand the new system.

Again, thank you for a job well done. I would not hesitate to recommend you to other companies looking to implement salesforce.

Sincerely,
