

To Whom It May Concern:

I am pleased to recommend NexGen Consultants as a Salesforce implementation partner. As a company moving from less robust means of client tracking to Salesforce, hiring experts to educate us both on the platform's functionality and how to customize it to meet our needs was imperative. Gretchen and Kristen spent many hours first understanding our business then making recommendations for how to use Salesforce to enable our current and future business processes. Everyone at NexGen is flexible, knowledgeable, and easy to work with.

Salesforce is a platform with capabilities beyond what most new users can imagine and we found that having expertise to guide our implementation resulted in a better system, better adoption, and better return on investment. If you're looking for a partner who will be flexible, competent, fair, and fun to work with, I highly recommend NexGen Consultants.
