Dear Randy,

I would like to take a moment and thank you for the work you and Debbie Fanning did on our implementation of the Private Equity template in Salesforce. We have users on both the Sales Cloud Enterprise Edition licenses as well as the Force.com Enterprise Edition licenses. Having been on Microsoft Dynamics CRM for years, we were concerned about losing data during the Data Migration process however that went extremely well and our data was migrated with no issues. In addition, thank you for taking the necessary time to understand our requirements and create reports with them. We have been pleased with the end results of the reports and dashboards.

Your organization took the time to understand what needed to be done and did so in a timely and efficient manner. The user training was excellent and the result is higher efficiency for Ridgemont Equity Partners. We are happy to recommend NexGen Consultants as a Salesforce partner.

Sincerely,

A handwritten signature in cursive script that reads "Kelly D. Brennon".
