Matt Mountain
NexGen Consultants

Dear Matt,

We would like to commend NexGen Consultants for the excellent work on our Salesforce.com project. Our main goals of the project were to:

- Implement the partner portal
- Incorporate territory management
- Increase User Adoption across our wide range of users

NexGen took the time to understand our situation and tailor solutions that fit our business. Being a manufacturing company, NexGen had to meet specific requirements to solve all of our issues. We were able to successfully reach all of our goals in a timely manner.

NexGen Consultants has been a pleasure to work with. I would highly recommend NexGen Consultants to any company considering implementing Salesforce.com.

Sincerely,

Clayton Webber
