Dear Paul,

I would like to thank you for all of your help with our Salesforce.com implementation. Although we did not have a huge budget for this project, you did a great job of maximizing your involvement in our project to ensure we received the highest return value from our investment in NexGen and Salesforce.com.

While initially, we were going to implement Salesforce.com ourselves, we decided to take advantage of your QuickStart Offering to get us up and running. Your 3 hour business requirements gathering session, subsequent requirement refinement sessions, and interactive user training methods really helped us enhance our business processes and get us up and running very fast!

I highly recommend you and your QuickStart Offering to all organizations looking to get started with Salesforce.com.

Thanks!!

Allison Bell
Senior Marketing Manager
