NexGen Consultants,

As a supplier to many government agencies, we found ourselves in need of a strong Salesforce.com resource to assist our project team on a very large project. We reached out to your organization and within a couple of weeks, had a very strong resource that knows both a lot about Salesforce.com Configuration as well as the technical aspects of the platform.

It was important for us to work with a firm that had significant depth of talent so that if needed, we could bring in other experts. I am very pleased with the work that you did for us and would recommend you to others that need a Salesforce.com consulting help.

Thanks Again,
