

NexGen Consultants,

I would like to take the time to thank both Kristen and Randy for coming through on a great project. NexGen was able to customize Salesforce.com to fit our very unique requirements and demands in a way that exceeded our expectations. NexGen was also able to successfully train our team by explaining the capabilities of Salesforce.com in terms of our day to day business.

Furthermore, we were concerned about migrating over ten years of data from an old ACT environment that involved tens of thousands of records. NexGen came through and completed the ACT to Salesforce.com migration on time and with complete accuracy.

The support provided by everyone at NexGen was exceptional. We absolutely recommend NexGen Consultants to any organization considering implementing Salesforce.com in any capacity.

Sincerely,

A handwritten signature in black ink, appearing to read 'Patrick Gunning', is written over a large, stylized, handwritten flourish that extends across the page.
