Dear Todd,

Thank you for all of your help in configuring our Salesforce.com environment and loading all of our data into the application. While loading data appears to be easy, you took the time to set expectations with me as to what I needed to do to assist you. I was very impressed that you were able to complete this work on time and under budget.

I highly recommend you and your company to anyone looking to get started with Salesforce.com. You did a great job. Thanks!!!!
