

OneSight®

est. 1988

May 16th, 2016

To whom it may concern,

In 2015 OneSight engaged a NextGen consultant to assist us in launching our new Salesforce and NGO Connect org. Our consultant was very knowledgeable of Salesforce and provided excellent strategic thinking on how our organization should be structured in order to drive success. OneSight is an independent nonprofit providing access to quality vision care and glasses in underserved communities worldwide. Since 1988, OneSight has impacted more than 9 million lives across 41 countries and we are leading solutions to bring sustainable access to quality vision care for all.

For this project we had the pleasure of working with David Sedlak as our consultant. David took the time to understand our business requirements to ensure a successful project. David mapped out business work flows for our org that are configurable and scalable as our organization continues to grow and change. He was thorough in his development and testing and completed the following:

- Overhauled our Salesforce Data Structure
- Completed the setup and organization of all Salesforce objects
- Supported the Salesforce side of third party "Clinic" solution during Clinic season
- Cleaned up records archived data
- Performed analysis regarding NGOC (formerly roundCause suite of non-profit apps) vs. NPSP (non-profit starter pack)
- Completed all Batch Uploads from 2015 and provided training documents

We have been very satisfied with all work completed by David and NextGen throughout this project. We will continue to consider David and NextGen for all future Salesforce needs and we happily recommend NexGen as a Salesforce implementation partner.

Sincerely,

Samantha Bodner
