Dear Matt,

Paragon Financial Group would like to thank you for all of the work you did to get our Salesforce.com application up and running.

As you know, we have had access to Salesforce.com for several years however the application was not meeting our business needs. After reviewing our requirements with you for a very short amount of time, you were able to understand what we needed, build a prototype and review that prototype with us. We were very impressed with how close the prototype was to our final application. We knew the prototype wouldn't be perfect but we were shocked as to how well you knew our business and industry.

I would highly recommend your services to any Wealth Management or Insurance company that is looking for a Salesforce.com partner.

Thanks again,
