Randy Davis  
NexGen Consultants, Inc.

Randy,

I would like to take this opportunity to thank NexGen Consultants in making our Salesforce.com implementation an enormous success. NexGen was a great help in implementing the Salesforce.com platform to support multiple divisions of our Wealth Management business. Our expectations for this project were met and exceeded, we are pleased beyond belief.

NexGen had great vision and was able to understand our business goals and present multiple options for how solutions could be created in Salesforce.com. They also were able to explain these solutions to our team members in a way that everyone could understand.

Nothing on this project could have gone any better, and we absolutely recommend NexGen to any Wealth Management firms that plan to implement Salesforce.com.

Respectfully,

Brian M. McKibban, CFP®, MBA  
Chief Operating Officer, Financial Planning
